

Building a Sustainable Restoration Trust

Evaluation Consultancy

The Restoration Trust, established in 2014, provides access to heritage projects for people with mental health challenges.

www.restorationtrust.org.uk

As we look towards the next decade, the Restoration Trust is running a strategic review and forward planning project over the next 12-18 months. This is funded by The National Lottery Heritage Fund. As part of this project, we wish to commission an evaluation consultant to evaluate the process of the project and report on its outcomes.

Our website contains the brief for the work which sets out the anticipated tasks. The budget for the evaluation is £7,500 plus VAT and expenses.

If you are interested in this work and would like further clarification, please register your interest by emailing Darren and we will send you the brief and associated information.
